The International Baccalaureate Organization (known as the IB) offers four high-quality and challenging educational programmes for a worldwide community of schools, aiming to create a better, more peaceful world. This publication is one of a range of materials produced to support these programmes.

The IB may use a variety of sources in its work and check information to verify accuracy and authenticity, particularly when using community-based knowledge sources such as Wikipedia. The IB respects the principles of intellectual property and makes strenuous efforts to identify and obtain permission before publication from rights holders of all copyright material used. The IB is grateful for permissions received for material used in this publication and will be pleased to correct any errors or omissions at the earliest opportunity.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, without the IB's prior written permission, or as expressly permitted by the [Rules for use of IB Intellectual Property](#).

IB merchandise and publications can be purchased through the [IB Store](#) (email: [sales@ibo.org](mailto:sales@ibo.org)). Any commercial use of IB publications (whether fee-covered or commercial) by third parties acting in the IB's ecosystem without a formal relationship with the IB (including but not limited to tutoring organizations, professional development providers, educational publishers and operators of curriculum mapping or teacher resource digital platforms, etc.) is prohibited and requires a subsequent written licence from the IB. Licence requests should be sent to [copyright@ibo.org](mailto:copyright@ibo.org). More information can be obtained on the [IB public website](#).

## IB mission statement

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

# IB learner profile

The aim of all IB programmes is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world.

As IB learners we strive to be:

## INQUIRERS

We nurture our curiosity, developing skills for inquiry and research. We know how to learn independently and with others. We learn with enthusiasm and sustain our love of learning throughout life.

## KNOWLEDGEABLE

We develop and use conceptual understanding, exploring knowledge across a range of disciplines. We engage with issues and ideas that have local and global significance.

## THINKERS

We use critical and creative thinking skills to analyse and take responsible action on complex problems. We exercise initiative in making reasoned, ethical decisions.

## COMMUNICATORS

We express ourselves confidently and creatively in more than one language and in many ways. We collaborate effectively, listening carefully to the perspectives of other individuals and groups.

## PRINCIPLED

We act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere. We take responsibility for our actions and their consequences.

## OPEN-MINDED

We critically appreciate our own cultures and personal histories, as well as the values and traditions of others. We seek and evaluate a range of points of view, and we are willing to grow from the experience.

## CARING

We show empathy, compassion and respect. We have a commitment to service, and we act to make a positive difference in the lives of others and in the world around us.

## RISK-TAKERS

We approach uncertainty with forethought and determination; we work independently and cooperatively to explore new ideas and innovative strategies. We are resourceful and resilient in the face of challenges and change.

## BALANCED

We understand the importance of balancing different aspects of our lives—intellectual, physical, and emotional—to achieve well-being for ourselves and others. We recognize our interdependence with other people and with the world in which we live.

## REFLECTIVE

We thoughtfully consider the world and our own ideas and experience. We work to understand our strengths and weaknesses in order to support our learning and personal development.

**The IB learner profile represents 10 attributes valued by IB World Schools. We believe these attributes, and others like them, can help individuals and groups become responsible members of local, national and global communities.**

# Personal, social and physical education strands

## Identity

An understanding of who we are, values, attitudes, beliefs, emotions, experiences, skills, abilities, and the impact of growth, cultural heritage and social environment; the recognition and inclusivity of strengths, limitations and challenges, as well as the ability to cope with change and adversity; how the learner's concept of self and feelings of *self-worth* impact their self-image; how identity impacts interactions with others and the world; the ability to build and manage a healthy identity as a digital citizen with integrity.

## Interactions

An understanding of how individuals and groups interact with each other, other living things and the local and global environment; behaviours, rights and responsibilities of individuals and collectives in their relational ways of being with humans and the world around them; the awareness, understanding, appreciation and acceptance of similarities and diversity; an understanding of how to collaborate, cooperate and communicate in a range of contexts, including the rights and responsibilities of being a digital citizen; an appreciation of the environment and an understanding of, and commitment to, individual and collective responsibility as global citizens of the Earth.

## Wellness

The knowledge, conceptual understandings, skills and behaviours that contribute to developing and maintaining a balanced, healthy lifestyle; the importance of nutrition, sleep, the mind–body connection and the balanced use of technology; understanding the causes and possible prevention of illness; the promotion of safety; rights and the responsibilities we have to ourselves and others to promote well-being; making informed choices, evaluating consequences, and taking action for healthy living now and in the future.

## Movement

An understanding of the importance of regular physical activity for *health-related fitness* outcomes (cardiovascular fitness, muscular strength and endurance, and flexibility); the importance of developing fundamental movement skills, motor patterns and manipulative skills; a sense of *body awareness* and an understanding of the body's unlimited potential for expression through movement, active play and physical activity.

# Overall expectations

| Overall expectations                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |  |

| Learners have an awareness of who they are. They describe how they have grown and changed, and talk about the new knowledge and skills that have accompanied these changes. They demonstrate a sense of competence and confidence with daily learning experiences. Learners reflect on their experiences in order to help them cope with change and new situations. They identify and respond to their emotions, and alter their response to stimuli to inform future learning. | Learners explore and recall many factors that contribute to a person's identity, and have an awareness of qualities, abilities and characteristics that make up an identity. They explore and recall different strategies that help them approach challenges and new situations with confidence. Learners are able to explore and recall their emotions in order to regulate responses and behaviour, and build resilience. | Learners understand that their identity and culture are shaped by a range of factors and changes over time. They analyse how they are connected to their social environment and are open to learn about others, and others' heritages and cultures. Learners explore and reflect on their emotions and the strategies they use to manage change, approach new challenges and overcome adversity. They use their understanding of emotions and awareness of others to interact with others and foster a sense of belonging. | Learners understand that physical and chemical changes affect their evolving identities. They understand that values, beliefs and patterns within society can impact an individual's <i>self-concept</i> and self-worth. Learners recognize and describe how a sense of self-efficacy contributes to accomplishments for personal and collective well-being. They reflect on strategies that develop resilience and apply this knowledge in order to cope with change, challenge and adversity in their lives. Learners understand that being aware and engaging emotionally with themselves and others help to create, navigate and build relationships. |  |

| Through play, learners interact and engage with others, sharing ideas, cooperating and communicating feelings. They are aware that their ways of interacting affect others and identify when their actions have an impact. Learners interact with, and care for their local environment. | Learners recognize the value of playing, engaging and interacting with others. They understand that participation in a group requires them to take on different roles and share responsibilities. They nurture relationships with others, sharing ideas, celebrating successes and offering and seeking support as needed. Learners understand that responsible citizenship involves conservation and preservation of the natural and social environment. | Learners understand that working in collaboration with others can be enhanced through the development of a plan of action, which involves identifying and utilizing the strengths of individuals. Learners consider and reflect on their own perspectives and ideas, as well as those of others. They understand that relationships are supported by the development and demonstration of constructive attitudes towards others and the environment. | Learners understand that they can grow from interacting with others. They recognize and value the need for developing and nurturing relationships with others, and can apply problem-solving strategies when conflicts occur. They recognize that people have interdependent relationships with the natural environment and other living things, and take action to restore and repair when needed. |  |

| Learners demonstrate an awareness of how daily practices, including activity and play, diet and sleep, can impact well-being. Learners understand that their bodies change as they grow. Learners recognize the need for safe practices when interacting in a range of physical contexts. | Learners understand the importance of being physically active, making healthy food and sleep choices, maintaining good hygiene and play in the development of well-being for the mind-body connection. Learners recognize some of the physical and mental changes they go through as they grow. They understand their personal responsibilities to themselves and others in relation to safety practices. | Learners understand the factors that contribute to a healthy lifestyle. Learners are able to identify different stages of life and understand that rates of development are different for everyone. Learners understand that there are potential positive and negative outcomes for risk-taking behaviours, and are able to identify these risks in order to maximize enjoyment and promote safety. | Learners understand the interconnectedness of the factors that contribute to a safe and healthy lifestyle, and set goals and identify strategies that will help develop well-being. They understand the physical, social and emotional changes associated with puberty. |  |

| Overall expectations                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |

| Learners show an awareness of how movement through physical activities and play can have an impact on well-being. They explore the body's capacity, including body awareness, <i>basic skills</i> , <i>locomotor skills</i> , <i>non-locomotor skills</i> and creative movement, through participating in a range of movement experiences in a variety of environments. | Learners recognize the importance of play and of being physically active in the development of well-being for the mind-body connection. They explore, use and adapt a range of fundamental movement skills in different physical activities, and are aware of how the body's capacity for movement develops as it grows. Learners understand how movements can be linked to create sequences and that these sequences can be created to convey meaning and achieve a desired purpose. | Learners demonstrate that they can enhance their participation in physical activities and play through developing and maintaining physical fitness, refining movement skills and reflecting on technique and performance. | Learners apply their understanding of the interconnectedness of movement and the factors that contribute to a lifelong healthy lifestyle. Learners begin to set goals and identify basic strategies that will help develop their well-being. Learners recall basic movement skills to transition into sophisticated movement patterns, and apply them in a range of movement experiences in a range of physical contexts during physical activities and play. |  |

## Strand: Identity

**Example concepts:** autonomy, beliefs, community, culture, diversity, emotions, gender, growth, heritage, perseverance, puberty, relationships, resilience, self-efficacy, sexuality, values, well-being.

| Example conceptual understandings                                                                                                                                                                               |                                                                                                                                                                              |                                                                                                                                       |                                                                                                                                                        |  |

| Phase 1                                                                                                                                                                                                         | Phase 2                                                                                                                                                                      | Phase 3                                                                                                                               | Phase 4                                                                                                                                                |  |
| Each person is unique and recognizing personal characteristics builds a deeper understanding of the self.                                                                                                       | A person's identity and sense of self are shaped by different factors, including their personal qualities and abilities.                                                     | A person's identity evolves over time through interactions with their culture.                                                        | Identity is impacted by different chemical and physical changes, as well as cultural interactions with others.                                         |  |
| As people grow, they develop new skills, understandings and abilities. Reflecting on this experience helps develop understanding of themselves, promotes self-worth and impacts their interactions with others. | Reflecting on interactions with others can lead to developing new strategies to face new situations and challenges, and to solve problems with confidence.                   | A person's self-concept is influenced by others and through personal reflection.                                                      | A person's self-worth is influenced by the values, beliefs and norms of a society.                                                                     |  |
| Navigating different outcomes is part of life and helps build character.                                                                                                                                        | Different challenges and situations require different strategies.                                                                                                            | Understanding situations helps our emotional responses and actions.                                                                   | As people learn to cope with change, challenge and adversity, they develop resilience, which leads to increasing independence and personal well-being. |  |
| Emotions, attitudes and self-worth influence the way people act and respond to each other.                                                                                                                      | Identifying and understanding emotions help people to regulate their own behaviour and to understand others, which contributes to the development of empathy and compassion. | Recognizing and accepting emotions help people to understand and empathize with others, which supports creating a sense of belonging. | Self-worth is reinforced through developing emotional intelligence, choosing positive relationships and identifying unconscious bias.                  |  |

| Example learning outcomes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |

| Phase 1                                                                  | Phase 2                                                                                                                                                              | Phase 3                                                                                              | Phase 4                                                                                                              |  |
| People's bodies influence how they can be physically active and play.    | Physical health and fitness are made up of different components (for example, sleep, concentration, strength, endurance) that respond to physical activity and play. | Maintaining fitness and well-being is related to active participation in physical activity and play. | Different fitness components are achieved in all types of physical activity and play.                                |  |
| Activities that develop new skills can impact the ways that bodies move. | Moving in different ways across different environments helps develop overall movement skill and motor patterns.                                                      | The choice of movement, technique and strategy is a response to the environment and situation.       | Identified movement skills, techniques and strategies can be achieved through regular practice and play with others. |  |
| Body awareness is developed through movement and expression.             | Movement can express feelings, attitudes and emotions.                                                                                                               | Movement can be expressed creatively in response to different external stimuli.                      | Movement and its elements provide artistic value to a performance.                                                   |  |

| Example learning outcomes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |  |

|                                                     |                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Basic skills</b>                                 | This refers to the fundamental skills of human movement such as running, jumping, skipping, hopping, catching and throwing.                                                                                                                                                                           |
| <b>Body awareness</b>                               | This concerns the awareness of own body parts and body movement, and supports the development of spatial, perceptual, directional and temporal awareness.                                                                                                                                             |
| <b>Fine body movement</b>                           | The use of the muscles in small movements such as using fingers, hands, and eye movements.                                                                                                                                                                                                            |
| <b>Fine-motor manipulative skills</b>               | Skills using the small muscles such as using fingers, hands, and eye movements.                                                                                                                                                                                                                       |
| <b>Gross-body coordination</b>                      | The ability to coordinate the movement of arms, legs and torso together when the whole body is in motion.                                                                                                                                                                                             |
| <b>Gross-body movement</b>                          | The use of muscles in larger movements using the arms legs or torso.                                                                                                                                                                                                                                  |
| <b>Gross-motor manipulative skills</b>              | Skills using the bigger muscles such as kicking, catching or rolling a ball underhand, bouncing, striking, or throwing a ball overhand.                                                                                                                                                               |
| <b>Health-related fitness</b>                       | For example, strength, flexibility, muscular endurance, cardiovascular endurance, body composition.                                                                                                                                                                                                   |
| <b>Locomotor movements or skills</b>                | The body is moved in one direction, or a combination of directions, from one point to another (for example, jumping and landing, jumping and spinning, skipping, galloping, leaping, shuffling, spinning, bear crawling, jumping a long rope, turning with assistance, chasing, fleeing and dodging). |
| <b>Non-locomotor movements or skills</b>            | Any movement that does not travel but uses the available space in any direction, or movement organized around the axis of the body (axial movement) (for example, stretch, pull, curl, balance, bend, swing, turn, sway, push, twist).                                                                |
| <b>Refusal skills</b>                               | These skills help people to refuse or reject risky behaviour, avoid peer pressure and make their own decisions.                                                                                                                                                                                       |
| <b>Self-concept</b>                                 | An idea of the self, constructed from the beliefs people hold about themselves and the responses of others.                                                                                                                                                                                           |
| <b>Self-worth</b>                                   | A sense of one's own value as a human being.                                                                                                                                                                                                                                                          |
| <b>Skill-related components of physical fitness</b> | For example, agility, speed, coordination, balance, power, reaction time.                                                                                                                                                                                                                             |
